

Quality Policy Statement

Callan Technology aims to excel in the design and manufacture of tailored DC Servomotors which meet Customer specifications.

We are committed to this policy by focusing on the following 3 pillars:

- Quality.....Zero Defects.
- Delivery....100% on time delivery to Customer Request
- Cost...to meet or exceed the customer cost requirements.

Central to fostering a culture of continuous improvement, key performance metrics are continuously measured through the management review process and results reviewed so that proactive actions are undertaken to improve our technology, our products, our processes and our service to customers.

This policy will ensure that Callan Technology business goals are met and sustained
